KATYA ALFEROV

(054) 520-6797 | katyaalferov@gmail.com

SUMMARY

Data & ETL Developer with strong Systems Analysis and Project Management capabilities, supported by a dual background in Computer Science & Psychology and nearly 5 years of hands-on experience in ETL/BI development, complex SQL, Python, and software engineering. Proven track record in leading end-to-end projects, defining technical and functional specifications, optimizing workflows and driving cross-functional collaboration. Fast learner, with high interpersonal skills, independent but also a strong team player. High motivation, and high dedication. Great passion for the Data field, AI technologies, and the Programming world.

PROFESSIONAL EXPERIENCE

ETL & BI Developer | Partner (Billing Team) (11/2024 - Present)

- Develop, maintain, test and enhance ETL processes using Informatica PowerCenter, Python and REST APIs.
- Develop, maintain, and improve reports and dashboards using SAP BusinessObjects (BO/BOXI) and Power BI.
- Create technical and functional specification documents (FSD/TSD), by gathering requirements from company stakeholders and translating business needs into scalable technical solutions.
- Create and maintain tables, packages, and stored procedures for the Billing department.
- Work extensively with Oracle and Microsoft SQL Server (MSS) databases, writing complex SQL queries for data extraction, validation, troubleshooting, and analysis.
- Perform SQL tuning to optimize query and ETL performance, including performance analysis, bottleneck identification, and optimization of data loading and retrieval processes.
- Manage end-to-end release lifecycle using GIT and CI/CD pipelines, executing thorough testing, production deployments, and post-go-live support to ensure continuous process stability.
- Project Management: Lead end-to-end data/ETL projects across the organization, in Agile and DWH environment.
- Leverage Generative AI tools to optimize daily workflows, streamline development processes, and execute AI-driven tasks and initiatives within the company.

ETL Developer | Isracard (2022 - 2024)

- Created, tested, optimized, and maintained ETL processes using Informatica tools (including Informatica Developer tool) in Agile and DWH environment.
- Provided 24-hour shift-based support to handle and resolve Informatica and Control-M failures.
- Wrote SQL queries and procedures in Teradata, Oracle, and Microsoft SQL Server for testing and maintaining ETL processes.
- Created and maintained tables, views, and stored procedures in Teradata.
- Wrote business and detailed designs for Control-M and ETL pipelines/processes.
- Experienced with reading Workflow and Control-M logs, working with JSON and XML files, HTTP and Java transformations, Jenkins, and Jira.
- Collaborated with internal clients, BI developers, data developers, DBA team, Control-M team, and other organizational units.

Programming Teacher | ProGeeks (2020 - 2022)

- Java programming teacher.
- Python programming teacher.

Marketing Manager | upper.il (2020 - 2021)

- Managed teams of content writers, PPC specialists, and SEO professionals to ensure cohesive, effective content strategies and campaigns.
- Oversee administrative and operational responsibilities, including coordinating marketing activities, managing budgets, and ensuring efficient workflow processes.

Freelancer Digital Marketing Analyst | Self-Employed (2017 - 2021)

- **Data Collection & Analysis:** Gathered and analyzed data from digital channels (websites, social media, email campaigns) to understand user behavior.
- **Performance Metrics & Reporting:** Tracked KPIs and created detailed reports/dashboards providing campaign insights and optimization opportunities.

- **Strategy & A/B Testing:** Designed A/B tests and recommended data-driven strategies for SEO, PPC, content marketing, and social media.
- **Tools & Execution:** Managed campaigns (Facebook, Google with large budgets), built WordPress websites using Elementor Pro, performed SEO optimization for top Google rankings, and managed social media pages (Facebook, Instagram, TikTok, LinkedIn).

Freelancer Content Writer & Email Marketing Specialist | Self-Employed (2016 - 2021)

- Created content across multiple topics according to customer requests.
- Developed and implemented content strategies using Gantt charts for scheduling and managing web/social media content to maximize SEO performance and engagement.

EDUCATION

B.A. Computer Science & Business Administration | The Open University (2020 - 2024)

GPA: 87

B.A. Psychology | The Open University (2019 - 2025)

GPA: 86

Internet Marketing and Advertising Course | HackerU College (2016 - 2016)

Full Matriculation | Ohel Shem High School (2012 - 2015)

RELEVANT COURSES

- ETL Informatica course at 'Aman' group
- Systems Programming Lab (Grade: 92)
- Database Systems - SQL (Grade: 93)
- Advanced Programming in Java (Grade: 86)
- Information System Development (Grade: 93)
- Data Structures and Introduction to Algorithms (Grade: 82)
- Computer Communication Networks (Grade: 82)

PROFESSIONAL KNOWLEDGE & SKILLS

- **Programming Languages:** SQL, Java, Python, C, HTML, CSS, JavaScript
- **Development Environments:** Eclipse, Visual Studio Code, Atom
- **Databases:** Teradata, Oracle, Microsoft SQL Server (MSS), Toad
- **ETL & BI Tools:** Informatica PowerCenter / Developer, SAP BusinessObjects (BO/BOXI), Power BI, Control-M, Tableau, DWH Architecture & Methodology
- **AI Tools & Technologies:** Generative AI, Prompt Engineering, ChatGPT, Copilot, AI Integration & Workflows
- **Digital Marketing & Analytics:** Google Analytics, Google Search Console, WordPress, Elementor Pro, Bootstrap, SEO, PPC
- **Other Tools & Methodologies:** End-to-End Project Management, Cross-Functional Communication, Jenkins, Jira, GIT, OOP, Data Structures, Algorithms, Microsoft Office (Excel, Word, PowerPoint)

LANGUAGES & RECOMMENDATIONS

Hebrew: Mother tongue | **English:** Fluent | **Russian:** Fluent
